

**Job Title:** Driller (Rotary)**Position Overview:**

We are seeking an experienced and safety-focused **Driller** to join our drilling operations team. The Driller is responsible for setting up, operating, and maintaining drilling equipment. This role requires hands-on technical skill, strong mechanical aptitude, and the ability to work in challenging outdoor environments.

**Key Responsibilities:**

- Operate and monitor rotary drilling rigs and related equipment in compliance with company and regulatory standards.
- Set up drilling sites, including mobilizing equipment, preparing drill pads, and securing work areas.
- Drill boreholes to specified depths and conditions, maintaining accuracy and efficiency.
- Perform routine inspections, maintenance, and minor repairs on drilling rigs, pumps, and auxiliary equipment.
- Collect and record drilling data such as penetration rates, depths, formation changes, and fluid returns.
- Direct and supervise drilling assistants and crew members during operations.
- Follow safety protocols, maintain a clean job site, and ensure compliance with environmental and industry regulations.
- Communicate effectively with project managers, geologists, and supervisors regarding drilling progress and challenges.

**Qualifications:**

- Proven experience operating rotary drilling rigs (Dual Rotary, Flooded Reverse, or Air/Mud experience preferred).
- Strong mechanical aptitude and troubleshooting skills.
- Knowledge of drilling techniques, well development, and equipment operation.
- Ability to read and interpret drilling plans, logs, and specifications.

- Physically capable of lifting heavy equipment and working long hours in outdoor conditions.
- Commitment to safety and teamwork.
- Valid driver's license with clean record (CDL preferred).
- Ability to travel to job sites as needed.

**Working Conditions:**

- Field-based position with extended hours and overnight stays depending on project location.
- Outdoor work in varying weather conditions.
- Physically demanding tasks including lifting, climbing, and operating heavy equipment.

**Compensation & Benefits:**

- Competitive pay based on experience.
- Overtime opportunities.
- Health, dental, and vision benefits.
- Travel per diem when working away from home.
- Opportunities for training and advancement within the company.
